***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following has been inserted before the first paragraph of the specification.

--The application is a Reissue of U.S. Patent Application No. 08/813,708, filed on 03/07/1997 and now U.S. Patent No. 5,802,641.--

***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: with respect to claim 14 the recitation of the leg holder as recited in the final paragraph of the claim is an overlooked aspect not shown or suggested by Klevstad (US 4,426,071). Klevstad does not show or suggest a leg cradle mounted between an operator device and a clamping device which is also movable around a first plurality of axes in the fashion claimed. With respect to claim 24, the recitation of the coupler configured to couple a leg holder to an elongated member is an overlooked aspect that is not shown or suggested by the Klevstad patent. In claim 48 the recitation of a leg holder coupled to a tube a first distance away from the clamping device is an overlooked aspect that is not shown or suggested by the Klevstad patent. Finally, with respect to claim 49 the recitation of a leg holder lockable relative to a support device and releasable to move relative to the support

device about a second plurality of axes is an overlooked aspect that defines over what is shown in Klevstad.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
